PROFESSIONAL SUMMARY

Motivated **Full-Stack Developer** with hands-on experience in **MERN stack** and **Python backend development using Flask and Flask-RESTful APIs**. Strong foundation in **Machine Learning**, including supervised and unsupervised learning techniques, with practical project experience. Currently learning **Deep Learning** and focused on building scalable, real-world applications with clean architecture and secure APIs.

SKILLS

Programming Languages

Python, Java, JavaScript

Frontend Development

HTML, CSS, React.js, Vite, Bootstrap, Tailwind CSS, Other UI

Backend Development

Node.js, Express.js, Flask, Flask-RESTful
JWT-based Authentication, Celery

Databases & Caching

MongoDB, SQLite, SQL
Redis, Memcached

Machine Learning & AI

NumPy, Pandas, Scikit-learn
Regression, Classification, Unsupervised Learning
Text Processing: CountVectorizer, TF-IDF

Deep Learning (Learning ...)

Neural Networks fundamentals
TensorFlow, Keras (Beginner)

Tools & Platforms

Git, GitHub, Docker
Postman, Thunder Client
Linux Command Line
Figma, Canva
Excel

Foundational Knowledge

Software Engineering
Software Testing

PROJECTS

Quiz Management System – Full-Stack Web Application

- Designed and developed a role-based quiz platform with **Admin and User dashboards**
- Built secure backend services using **Flask and Flask-RESTful APIs**
- Implemented **JWT authentication and authorization**
- Managed quizzes, questions, user attempts, and score analytics
- Developed frontend using **JavaScript with Vite** for fast build performance
- Followed modular backend architecture and clean API design principles

Machine Learning Practice Projects

- Built regression and classification models using real-world datasets
- Performed data cleaning, preprocessing, and feature engineering
- Implemented text classification using **TF-IDF and CountVectorizer**
- Evaluated models using accuracy and other performance metrics

MERN Stack Mini Projects

- Developed CRUD-based applications using **React, Node.js, Express, and MongoDB**
 - Integrated frontend with RESTful backend APIs
 - Applied best practices for component structure and API communication
-

EDUCATION

BS Degree – Data Science & Applications

Indian Institute of Technology Madras | 2023 – Present | **CGPA: 8.46**

Senior Secondary Education

UP Board | 2022 | 76%

Secondary Education

CBSE Board | 2020 | 85%

ACHIEVEMENTS

- Secured top grades in **Web Development** and **Machine Learning** Project
 - Designed and shared structured learning tracks on **AI tools**, **product thinking**, and **online certifications**
-

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
 - Data Science for Beginners(Alma Better)
 - ML Project using Linear Regression
 - International Yoga Day Challenge
-

LANGUAGES

- English – Full Professional Proficiency
- Hindi – Native
- German – Elementary (Self-learning)
